Subject: Fwd: State Position on DOE Protocols

Attached is the most recent revision of the States' Position on the US Department of Energy's (DOE) Practices Manual as it currently relates to the transport of spent nuclear fuel and high-level radioactive waste under the Nuclear Waste Policy Act, as amended.

Please provide me with any comments by our meeting on June 7. All of the state regional groups are planning to compile comments and have a conference call in early July. Thanks.
